

Demo F-22 12 Feb 22 – 5:00 pm

In Attendance:

K. Burns – Notes
V. Nelson – Notes for Chief
P. Sloly
S. Bell
C. Huneault
J. Leblanc
B. Dunker
R. Bernier

- Bernier – waiting for the Mission Statement – Huneault will look at it
- Lucas – 1630 – 5 to 600 on Hill – 1000 in footprint – party atmosphere – antivaxxers – not a big change in trucks – different crowd dynamics – War Memorial – veterans are guiding site – dismantled fence, speeches, City picked up fence – Traffic strategy very successful, diverted trucks into Gatineau
- No issues with counter demonstration – only 300 people – no issues
- Couple of other car demos – incident with medical caller - hypothermia of child – investigation ongoing
- Fair number of calls – noncompliance with masks and bylaw
- Crowd dynamics have created an issue
- Intel – increase in sales lately of bear spray
- Bell – Lucas – around cenotaph – can we get fences back up?
- Lucas – maybe later in the night but cannot do it now, crowd against it
- Bell – was veterans – Lucas – yes – Bell leave it to command centre – need to look at – lightning rod – Lucas will make sure he has this discussion with evening crew
- Bernier – will bring team together and asses all possibilities and if we can reestablish early in the morning can look at fencing at that point
- Sloly – leave it for discussion – Rob – the first Saturday when we lost area, it was my understanding that the Military had imbedded the area and we were going to be able to keep us abreast? - Is this person still imbedded? - Lucas – never been a member of the military has not been part of structure at NCRCC – will not engage – do not own it – protect their sentries only
- Sloly – own it – up to us to make the plan – Bernier will have the discussion
- Sloly – best deterrent we have is arresting the first person – Bell – unable to identify, thought we had her but complete scrub of their social media – no one has reached out to help
- Sloly – unbelievable lucky and stresses unbelievable – good image seen by thousands, got to find a way to bring person to justice
- Lucas – Intel Update? – no
- Drummond – all convoys scheduled to come from Quebec are now in Gatineau – issue with bear spray – Intel working on it – reaching out to vendors to see if can pull from shelf

- Amy Gagnon – proper mindset with members – drafting message to our members to remind officers to have eye protection – not laying out the Intel
- Bell – five points to update
- Traffic – Bernier – clarified that Traffic plan is good interim adhoc plan that is successful for tomorrow morning – if looking for more robust hardened plan is being worked on and will have it for mid-week
- Bell – have you already provided same to Chief and is it to your satisfaction – clarification – Sloly – document Bell sent – were you aligned – Bernier said it was the plan – Traffic plan – tidy process up, one plan implemented and implemented successfully
- Sloly – going forward, someone else should be gathering and briefing Intel
- Bell – Trish tomorrow, Patterson – Intel and Dunlop – investigative
- Sloly – cenotaphs – as much as getting offers from many services to help, getting offers from many companies that will help us and not charge a penny – private sector – consider around other operational aspects, why not this – a lot of people with a lot of skill that can be used to help us
- PLT Plan – got Rob here – has been dealing with PLT – D. Springer and G. Walker – will be following National Framework on PLT – trust this well-established system – trust it and need to trust it- Drummond – always been what we have been following – have not deviated – plan will be forwarded on to Steve – same program as OPP and will continue to follow
- Sloly – that is not what I have heard from the PLT members, PLT supervisors and Carrique when he is being updated – this is not being translated – want to believe what you are saying – Chief feels they are broken
- Bernier – will turn it around tomorrow and will communicate
- Sloly 0 if here another report that they are drifting this will be a significant problem for you – has not confidence that that plan is operational
- Bernier – needs to be a rebuilding over that last two weeks – he will be doing that
- Bernier – thrilled to have conversation with Phil and Carson – after discussion with Dave relieved to be going forward – plan is going to be a foundation framework – let's get down on paper and get it down -0 don't have it – good integration with RCMP – want to imbed one of their people – don't need static – need radios –
- Bernier – have strong OPP presence very much involved – if need to do same thing in SCC- POU, PLT and my Deputy, working in harmony
- Bell – saw both plans – get it built up and implemented
- Debbie – Mary called RCMP and they have no one to deploy
- Bell – stop saying it – Phil needs to start saying it – falling on deaf ears – has to be them integrated into our teams
- Bernier – Debbie – good connection with trying to get that aligned – get them talking again – not from our end being able to handle it – bit of them trying to figure them out – once they are ready, we are ready
- Sloly – call today with Commissioners – agreement that every day at the start of the day that Carson Pardy and integrated team will present under the command
- Bernier – not me
- Sloly – Pardy agreed he would take it on and would deliver

- Bell – not a you do, but have to drill it down to your NOC that it is an actionable deliverable item
- Bernier – this table driving staffing needs on mission we are developing next 24, 48 and 72
- Bell – need to task our actions, staff our actions – single source of truth how many people we have accessibility to – Debbie needs to manage around what we have – needs to be that NOC – Carson will report on single source of truth how many we have to staff actions
- Bernier – C. Rheume still there?
- C. Rheume needs to get that to Bernier
- Bell – yes
- Sloly – well understood, thank you
- Sloly – beyond OPP and RCMP, we sent out all Chiefs – got flurry of responses, is this response being managed and are we aware of what is coming – how many municipal – need to know it now – and daily OPP, RCMP and Municipal are in deployable
- Debbie – getting a lot of resources, hope to plug them in
- Bell – is that not something the NOC will manage – Pardy was involved – take that package to NOC and then Debbie can worry about our structure in place
- Bernier – defer to Debbie – if she needs help from NOC I will support, if not, more of hinderance – help her – will leave to Debbie
- Bell – next 24 hours – Bernier – had a meeting – party festival – hard to take any concrete action in this environment – in maintenance mode -tomorrow will talk team PLT POU start a plan – going to move in and shrink the footprint – start early in the week – see how it works how effective we are – see ho
- Today and tomorrow is maintenance but starting to identify locations once things relax a reduction in footprint
- Fully integrated approach to shrink footprint
- Bell – next 24-hour cycle note the inclusion of the cenotaph – needs to be front of mind
- Bernier – will be round table he is going to have – make look at different fencing
- Sloly – around 24 hours – still existing civil injunctions, etc. - where does it stand in any staging locations
- Bernier – dop not have line of sight on any letter – have been given info from Huneault with regards to overall iniunction – not specific to Coventry

- Honking and orders down from province
- Bell – had a plan I place for today for enforcement around outer core that would utilize new orders that were put out
- Bernier – have we line of sight on specific orders?

- Bernier – what are the offences off hand – will look in his email
- [REDACTED]
- Bell – messaging – Bernier – Gagnon here – meetings tonight – will discuss the messaging piece – nothing now but will have something tomorrow
- Bell – list of five – are you good Chief
- Chief – good with those – what are we messaging out today – we have had results – need it to go out today
- Sloly – need to know and by 6:00 pm Amy and John should be talking
- Bell to Sloly – any information from Navigator?
- Sloly – Navigator waiting for results from this meeting
- Bernier – successes – has been working on release (Gagnon) going on today
- Bernier – Windsor – nowhere near done still working on it – days working on it
- Sloly – turn it around – looking for it from you (Command)
- Sloly – once approved ensure Gagnon sends to Steinbachs
- Dunker – contact with Deans – Deans connected with Dunker – heard from Mayor backlog swearing in RCMP – did let her know what are process is – confirmed no backlog – 421 RCMP officers on list provided, 306 are sworn in – no delay – 9 am and 9 pm timelines
- Asked about the numbers in general and let he know we are working
- Dunker – asked whether conveying with PM and RCMP with respect to resourcing levels, are we able to sit with them and update
- Jeff Leblanc is on call and Debbie and Heather and Sweet and Charbonneau – will look at 6 pm
- Dunker – so much detail, look at it, roll it up – need Steinbachs help
- Need to get something out to Deans as soon as comfortable – will get to Chief, Steve, Trish, and John
- Sloly – observation – point made over and over again – yet to have any single source of truth for any amount of officers – external officers at any point of this
- All completely different numbers – cannot have it now or tomorrow morning – don't care what needs to be fixed – has to be fixed
- How many of the RCMP sworn in are working under Rob – needs to know that number – OPS, RCMP, OPP and Municipal officers – that is the only number – needs to come from Carson Pardy who will give to Commissioners
- Dunker – I think one of the things is there is so much trying to be perfect, need to get the picture, number and stick to it
- What is difference between what asked for and short on – based on what we said publicly,
- SLOLY interrupting – did ask for that, doesn't need it now
- How many officers OPS officers at start of day under incident command, RCMP under incident command, OPP under incident command and municipal under incident commands – under direction of Rob Bernier – that is the list needed
- Bell – okay, that is it
- Chief – okay folks another rough day, a lot of successes – tremendous lift Steve – R. Bernier got you on a tired moment – huge amount of work
- We are still recalibrating – a lot we have to do

- Please keep working hard, together, best communication – let's not lose the cenotaph – ask early, lean in early do not wait –
- What time tomorrow – 9 and 5 pm
- Steve will run first one and Trish can take it from there
- Dunker to Bell can only look backwards – who on the ground?
- Bell – need to integrate with Debbie – Dunker - Debbie and Heather is looking backwards, not real time – not how it works
- Bell – here are the numbers we are putting out today – those numbers in there on a daily basis
- Dunker – H. Ogilvie does not decide who is on boots each day – we don't do that
- Bell – D. Palmer will give the forecast
- Dunker – why do we not just use that? Why are we making it more complicated?
- Dunker – here people are getting rear view mirror – they are on Friday today – whoever deploys in the morning, they are the ones that have that information
- Bell – here is the bucket – explain the bucket – explain the number we are forecasting to put out each day
- 250 today – 248 to 252 – why can't we say this
- Dunker – need to know how many available right now and then tomorrow morning we need to know how many are deployable
